

YEAST INFECTION

R E S E A R C H S T U D Y

DOVE STUDY

Are you currently experiencing symptoms of a yeast infection such as **vaginal itching, burning, and irritation?**

Find out if you qualify for a clinical research study.

The DOVE Study is currently underway to test the safety and effectiveness of an investigational medication for Vulvovaginal Candidiasis, also known as a yeast infection.

To qualify, participants must:

- Be 18 years of age or older,
- Be experiencing symptoms of a yeast infection, such as vaginal itching, burning, and irritation.

Qualified participants will receive all study medication and study-related care from a dedicated team of medical staff at no cost.

Health insurance is not required to participate. Compensation may be provided for time and travel.
