

Office Visits for Adolescents (patients 18 years of age and younger)

It is Lawrence OB-GYN PC's policy and practice to provide the best clinical care possible for all patients, at all times. We believe that it is in the best interest of each adolescent patient to be seen initially by their provider prior to including a parent, guardian or other supportive guest.

- This policy will be communicated at the time the appointment is scheduled and again when the appointment is confirmed.
- At the time of the appointment, the patient will be called back, individually, to see the provider they are scheduled to see first.
- After an initial conversation between the patient and the provider, the parent, guardian or other supportive guest will be included in the visit at the request of, or with the permission of the patient.
- It is the responsibility of the provider to ask the patient if they would like a parent, guardian or other supportive guest to be included in the remainder of the visit and document their response.
